The department of Computer Science has initiated an annual intercollegiate fest titled “Protocol” where the following events are conducted.

- Virtual wars,
- Code storm,
- Bug arrest,
- Tech talk,
- Quiz.com,
- Trace the trove,
- Web krafting,
- Cross terminology,
- Tech-charades and
- Brain-flexer.

The objective of the fest is to arouse interest in the academics and the application of computers to solving specified problems. The best talented is recognized and awarded with a rolling trophy. It has been witnessed from the past two years that the event has been widely acclaimed amongst the students and the institutions. An average of about 50 colleges have participated in the past two years with a student strength of about 400.

❖ **Protocol '13**

Date of the event : 25th March 2013
Inaugurated by : Mr. Sripad Krishnamurthy, Head of
Capability Development, Adobe India
No. of participant colleges : 35
No. of student participants: 210
Winners of Rolling Trophy : Maharani Lakshmi Ammani College,
Malleswaram

❖ **Protocol '14**

Date of the event : 24th March 2014
Inaugurated by : Mr. Srihari S, Managing Director, India
Development Novell Netware,
Bangalore
No. of participant colleges : 30
No. of student Participants : 150
Winners of Rolling Trophy : Kristhu Jayanthi College, Bangalore

COC course in Network Simulation sponsored by UGC started in the year 2008.

33. Teaching methods adopted to improve student learning

- Chalk and talk method
- Audio-visual presentation for theory and practical classes
- ICT in teaching – learning
- Seminars by students in individual subjects
- Mini projects and major projects
- Invited guest lectures
- short term programmes
- Remedial classes for slow learners
- Student participation in intercollegiate competitions

34. Participation in Institutional Social Responsibility (ISR) and Extension activities

The department aims at providing an atmosphere of holistic development of students thereby transforming them into responsible citizens by transferring moral values. It aims at pursuing excellence towards creating students with high degree of intellectual, professional and cultural development to meet the national and global challenges. Department conducts various interclass competitions making for the preparation of the students for various intercollegiate competitions. The department encourages the students to involve in NSS activities and Blood donation Camps. Many of our staff has worked as resource persons for Pre-university colleges and schools. Teachers have gone to several institutions as judges for various intercollegiate competitions. Faculty members has given free consultation for establishing computer labs and purchase of software. Students are advised to save the power for nation by switching off the systems when it is not in use.

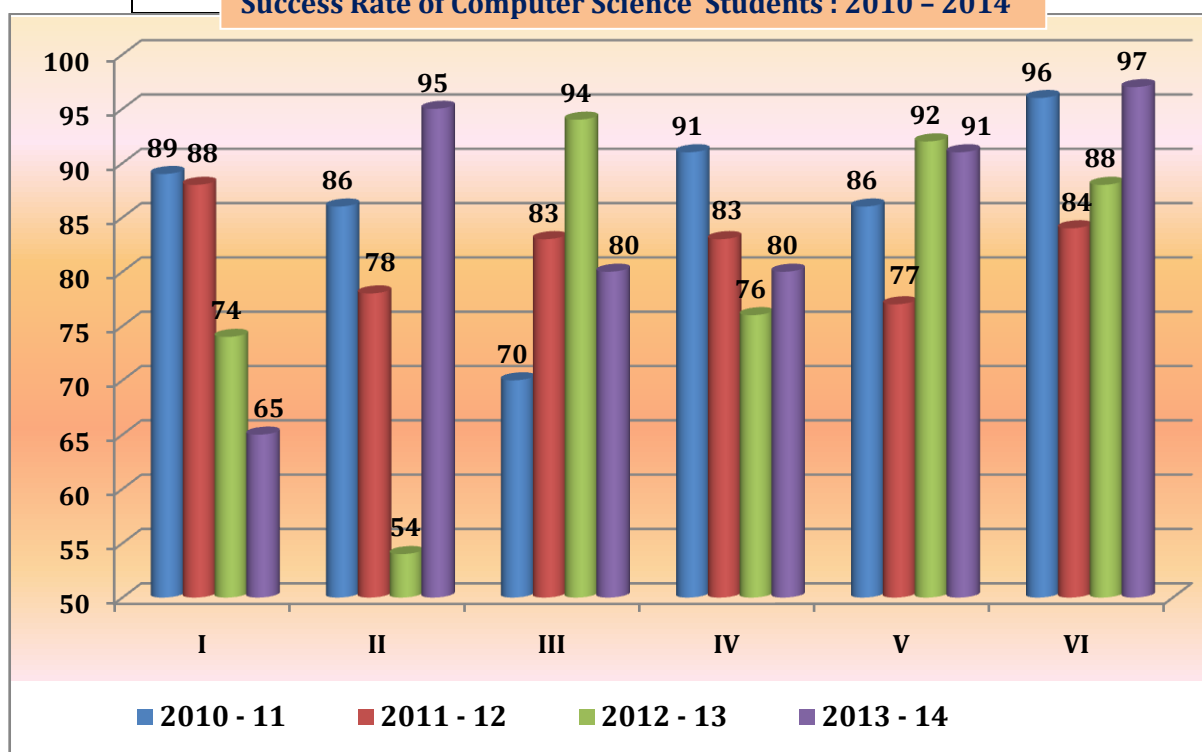

E-waste Management : An awareness programme was conducted and advised to collect E-waste generated by all the departments and administrative office and hand it over to the designated organization. This is an initiative launched by the BHS HES management in all its institutions.

33. SWOC analysis of the department and Future plans

Strengths

- Good Team Work in the Department.
- Innovative Project Works by students.
- Consistent good results
- Good Infrastructure and Lab facilities.
- 80% of faculties are M.Phil. holders.
- Supportive alumni.
- Department has an interdisciplinary culture as faculty and students of all other departments seek support from the departmental staff for carrying out computer related tasks either for research work or for adopting modern pedagogy
- A good number of Supporting Technical Staff
- Active participation in the green revolution by achieving optimized utilization of material resources supplied to the department.
- Extensive use of ICT in class room as well as in lab.

Weaknesses

- No Ph.D. holders, however, most of them are M.Phil qualified.
- Lack of industrial exposure for internal faculty members.
- Less employment opportunities in IT development sector

- Limited faculty development programs for all to participate
- Professional skills needs to be further improved among students
- Communication skills among rural background students needs improvement

Opportunities

- Industry oriented training to students
- Implementing technological innovations in the college campus
- Implementing technology based teaching and evaluation strategies
- Becoming a leader in interdisciplinary and integrated learning
- Creating more opportunities to interact with eminent personalities in the IT field
- Upgrading M.Phil. qualified faculty to Ph.D.
- Designing short courses for working professionals
- Establishing a Central server and subscription to more online journals
- Motivating students towards competitive examinations like CAT/ GRE and also towards Govt./public sectors jobs

Challenges

- Adopting to rapid changes in software technology
- Funding requirement to change the infrastructure based on fast changing technologies
- High competition and fluctuating demand in industry.

Future plans of the department

- Development of learning resources such as computer based tutors, e-content and e-books and simulation of some practical problems.
- Procurement of IBM servers which will be used for storing e-content as well as web server.
- Industrial collaborations.
- Introduction of skill based certification programs in networking such as MCSE, CISCO and Active Directory services
- Efforts to get live projects for students.
- Strengthening the department library

- Bringing out a news letter from the department
- Floating e – magazine to hone creativity amongst students and faculty

Best Practices

- Additional labs conducted for students apart from the regular lab.
- All e-wastes are being disposed for recycling from 2009 onwards to an organisation designated by the management.
- The intercollegiate fest “**Protocol**” has received a wide acclaim among students and faculty members of different institutions as it is academically challenging.
- Irregular students are counselled periodically and motivated to attend classes.
- Use of plastics is discouraged in the department
- ICT is widely adopted for teaching – learning process
- Staff training program conducted in MS-Office and Internet
- Technical support by programmers for teacher researchers in programming techniques
- Departmental library facility for students and teachers.
- Technical consultation for the students other than the college and other educational institutions
- Teachers engaged as Resource persons and consultants in different institutions for setting up lab, conduct of workshop and procurement of software.
- Academic planner, unitization of syllabus, notes and question paper on the website.
- Student seminar and projects to upgrade their skills.
