DRY & WET WASTE MANAGEMENT TECHNIQUES

Sri Vasuki, environmentalist from Soil Health organization demonstrated with examples the time taken for some of the wastes like biodegradable and non – degradable wastes to decay in the soil. He also emphasized students and staff to minimize the use of plastics with thickness less than 80 microns. He also suggested that the plastic should be segregated and disposed separately so that these could be recycled instead of throwing in the trash or sea.

E-Waste Management

On 29-01-2020 Smt Dakshyani, a resource person for E-Waste management awareness campaigns in association with RLG(Reverse Logistic Group) and MEITY(Ministry of Electronic and Information Technology). She gave statistics of E-waste accumulated all over the world. She also highlighted the pollution causes by E waste and the importance of E waste management.
