About Science Academies

The Indian Academy of Sciences was founded by Professor C. V. Raman on 27 April 1934. It aims to promote the advancement of science in both pure and applied branches through the support of original research and the dissemination of scientific knowledge to the community. The three science academies of national importance – Indian Academy of Sciences, Bangalore; Indian National Science Academy (INSA), New Delhi; and The National Academy of Sciences, India (NASI), Allahabad has set up Science Education Panel to promote the progress and upholding the cause of science. One of the activities of the panel is to conduct Lecture workshops to provide means of exchange of scientific knowledge amongst scientists and to nurture scientific talent amongst the students and teachers.

About the College

Vijaya College was established in the pre – independence era of 1945 by BHS Higher Education Society with an objective of social inclusion and access to education for underprivileged classes. The college has been conferred with the status "College with Potential for Excellence (CPE)" by UGC in 2016. The college student strength is about 2800 and the faculty strength is nearly 140. The college has been conducting several outreach activities for the benefit of teaching and student communities. The department of physics stands dedicated to its basic principles in imparting knowledge and preparing the students towards achieving academic excellence.

About the Workshop

Nanoscience and nanotechnology has revolutionized the entire scientific and technical fields having its reach far and wide in diverse fields including that of pharmaceutical and medical industries. A thorough understanding of its fundamentals is the essence of every science student graduating from any university. With a view to impart the basics and develop research interests in this field, the Department of Physics, Vijaya College pioneered to hold one such workshop. The Science academies' have been providing the financial and professional support in this venture. The lecture workshop titled "Recent Trends in Nano Technology and Material Science" is planned to host on 22nd and 23rd March 2017. The lecture sessions will be delivered by well acclaimed and eminent professors drawn from Indian Institute of Science, Bangalore and Jawaharlal Nehru Center for Advanced Scientific Research, Bangalore. The lecture sessions are expected to motivate the students to pursue higher education and research in pure science.

(g) You should send us three copies of the printed programme cards once it is printed.

(h) We can advance money by electronic transfer on a specific request from you.

We will need the following bank details:

1. Account No;
2. Name of the Account Holder;
3. Name of the Bank;
4. Name of the Branch;
5. IFS code for non-SBI accounts.

(i) The audited expenditure statement/utilization certificate duly signed by competent authority (CA or Financial Controller) to be sent along with the report, once the Course is over. This is required for the audit compliance.

You can go ahead with organizing the Workshop in consultation with Prof. S. Natarajan and keep in touch with us about the progress.

With regards,

Yours sincerely,

A brief report of the lecture sessions workshop on Recent trends in Nanotechnology and Material science, held at Vijaya College on 22nd and 23rd March 2017 sponsored by Indian Academy of Sciences.

The lecture workshop was inaugurated on 22nd march 2017 at 10.00 am. The keynote address was delivered by Prof. S. Vasudevan , Solid-State Structural Chemistry Unit , Indian Institute of Science, Bangalore and the guests of honour were Prof. S. Natarajan, Solid State Structural Chemistry Unit, Indian Institute of Science, Bangalore and Dr. T D Mahabaleswara Coordinator, Lecture workshop and Refresher course, Science Education panel, Bangalore and the presidential address was given by Dr. Ananth K Atre, Joint Secretary, BHS Higher Education Society.

The first session was delivered by Prof. S.Vasudevan on Functional layered compounds. He started from the basics and developed the subject to the recent research that is taking place in the nano materials.

In the second session Prof. G.U.Kulkarni, Chemistry and Physics of Materials Unit, Jawaharlal Nehru Centre for Advanced Scientific Research, Bangalore spoke on Graphene - The wonder Material which is a monolayer. He started his talk with a pencil lead as a nanolayer and developed the subject interacting with the students.

The third and fourth sessions were delivered by Prof. S.Sampath, Inorganic and Physical Chemistry Unit, Indian Institute of Science, Bangalore. His first talk was on Self - Assembled Monolayers. He continued the talk of Prof. G. U. Kulkarni and his second talk was on Nanomaterial's for Batteries.

The next day, in the first session, there was a talk on New battery cathode Materials by Prof. S.Natarajan, Solid State Structural Chemistry Unit, Indian Institute of Science, Bangalore. He gave a brief introduction of the function of a battery and later explained how lithium is widely used as the cathode material.

The second session and the third session were delivered by Prof. A Sundareshan, Chemistry and Physics of Materials Unit, Jawaharlal Nehru Centre

for Advanced Scientific Research on Superconductivity. He explained the basic laws of superconductivity and the applications in detail. He demonstrated the phenomenon of superconductivity and magnetic levitation principles.

Prof. N Chandrabhas, Chairman, Chemistry and Physics of Materials Unit, Jawaharlal Nehru Centre for Advanced Scientific Research, Bangalore delivered a lecture on Raman Scattering studies on Nano materials. He explained the Raman Effect in a simple way and how it is applicable at the nanoscale.

The last session was delivered by Prof. A.M.Umarji Chairman, Materials Research Centre, Indian Institute of Science, Bangalore on thermoelectric materials. He discussed in detail which are the materials used as thermoelectric materials in the nanoscale.

We had 218 participants (199 students and 19 faculties). All the lectures were very well appreciated by the participants and interaction with the resource persons was very good. All the professors were very patient in clearing the doubts of the students. They invited the participants to their labs in small numbers.

The lecture workshop was a great success. A feedback session was conducted and participants expressed their opinions. Their comments were very positive. The session concluded with the valedictory function. The chief guest of the valedictory function was Prof. A.M.Umarji and the president was Prof.R.V.Prabhakara, Joint Secretary, BHS Higher Education Society.

The general opinion of all the participants was that such workshops must be conducted periodically for the benefit of students and staff.
