A very good lecturer who knows what she explains

Instead of ppts chalk board will be best

No changes needed

Best

Use of more chalk and board methods to teach

Please continue the same pattern

All good

-

Board and chalk teaching is understood better than presentation .

Improve vocabulary

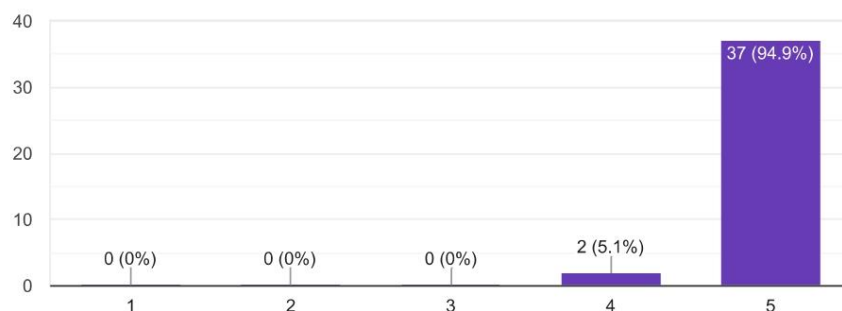

Please give some important questions

No issues

Try

1. To give proper notes with pointers
2. Explain more neatly
3. not use in kannada in between

I don't know..she never taught us

All good

Already improved

It would help if more practical and application based classes are taken, to get work based knowledge rather than the textbook stuff.

Ma'am is too speed and she will start early whether the students are entered the class or not. Ma'am should explain again and again but she will do both like explaining and writing and she will not give students to write it. She rushes to complete the portion.

Good

Maybe could reduce taking extra classes unnecessarily when there are many normal classes to complete the portions

She does not take classes for me in this semester as I have opted Business Mathematics as my subject. So considering my opinion of 1st semester, she has to explain the concepts not by the material that she writes in one paper and reading that, if that happens the students feel that she is reading and telling. So she should give the explanation with examples and through proper interaction with the students.

Little need to concentrate

Good teacher

Need to go bit slow in explaining

Very Good explanation compared to 1st semester

Should only take banking

Nn nothing we can understand her teaching

No comments

No

Allow a doubt clearing session in the last 5-10 mins

To give a brake in between the class for students

This teacher is for another section not for us

1. benches

2. classroom neatness

3. light fans

She should take the class without taking holidays often.

MAKES US UNDERSTAND EASILY, BUT WE WANT MORE REAL LIFE EXAMPLES T KNOW MORE
