15. The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process.	41	93	47	17	15	213
16. The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences.	52	90	37	21	13	213
17. Teachers encourage you to participate in extracurricular activities	77	95	27	8	7	213
18. Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work.	50	85	33	30	15	213
19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.	44	60	29	28	58	213
20. The overall quality of teaching-learning process in your institute is very good.	52	88	51	14	8	213

Method of analysis

1. The student response with options 4, 3, 2, 1, 0 were counted for each question in the sample collected.
2. No. of student responses for each option was determined.
3. Total score was calculated by multiplying no. of each options from student responses by giving values 4, 3, 2, 1, 0.

principal@vijayacollege.ac.in

Website: www.vijayacollege.ac.in

4. Dividing this total score by the total sample size, the average score was determined.
5. Average score was multiplied by 25% to convert the options to percentage.
6. Threshold of 75% was taken as the benchmark percentage above which the performance is good below which the performance needs to be improved.

Strengths of the system

1. Syllabus coverage
2. Preparation of teachers to classes
3. Ability of teachers to communicate well
4. Fairness of internal evaluation system
5. Explanation of concepts through examples & applications
6. Teachers approach to teaching is more student - friendly
7. Overall quality of teaching - learning in science sections are good

Areas requiring improvements

1. Promotion of internships, field visits
2. Mentoring process in facilitating cognitive, social & emotional growth of students
3. Provision for multiple opportunities to learn & grow
4. Engaging students in monitoring, reviewing, & continuous quality improvement in teaching - learning processes.
5. Enhancing student - centric & experiential learning strategies
6. Enhancing soft skills, life skills & employability skills of students
7. Use of ICT tools by teachers

21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

Good
Nothing
Nothing
Good
..
.
Expecting to improve overall growth
Practical
Very good
Excellent Good
Have to improve to teach well
Proper revision classes Important questions to be discussed Make theory subject interesting
To be more interactive with students
Make sure every students performing fairly in internal exams and lot of improvement need to be done in sport department..
Interaction Clear doubts
All the best teachers
Null
Good teaching
Some teachers are biased ,they only give a tans of notes some are useful and some are totally useless I don't no why they give that ,and BBA is professional course in that sense I feel sometimes that I'm in professional course only or somewhere else I don't no Teachers are not use projector simply giving notes read this and do your exams well If activities conducting means please change the time after 2 or 3 it's not possible most of the students are working they also participate because of time it's not possible.
Any programme must be updated to the near new industry standards with frequent industry visits and the students should be assured that the courses that they have opted for is going to help them in getting jobs.
More engagement of students and teachers together. Bonding of students and teachers.
No suggestions
I think teachers give moderate supportive to the students
Good Fair Neutral
Need to use LCD projector
Good Better Nice
Make teaching a two way interaction
Need to improve
More effectively Need More usage of ICT tools for Bettr understanding
Teachers experience is good usually no problems with teaching. But in office the attenders show attitude and not work properly lazy people first change them they are arrogant
More encourage in various activity

Try to interact with every students

N.A.

I feel black board and chalk is the best of best than smart class Thank you

The teaching should improve a bit The teachers should give suggestions about the work process are going to internships so and so

1. Focus on competing the portions more than giving out of the topic lectures 2. Conduct fest
3. Provide college laptop or PC for the presentation activity given by teachers as most of them don't have one.

Encourage each and every students to participate in such activities Teaching much improve little Teachers much use ICT tools in classroom while teaching.

TO ENCOURAGE DIGITAL LEARNING AND IMPROVEMENT OF THE COLLEGE INFRASTRUCTURE

It would be really nice when the staff recognises the talents of the student and guide them properly

More communicate with students

...

cla

Well Importantly Communication

.

Teachers should convey to students in a right way if he doesn't understand anything....

Doesn't care if anybody listens or absent

None

By giving 2 minutes break

All teachers are teaching well and they guide more and more importance for students to learn more and more

Teachers do give very good advices

1) Regardless of distractions such as phone sounds or students behaving disruptively (barking), one should not waste time and should promptly begin explaining the concepts. If students misbehave, consider taking appropriate disciplinary actions, such as suspension. 2)

Teachers often claim, "Ask me a hundred times, and I'll teach you," but when I inquire about my new class roll number, they insist they mentioned it in the last class and won't repeat it.

Similarly, when students are questioned about their low attendance in a specific subject, they are accused of irregularity, but the reality is that mistakes are made on the part of the teachers. 3)

Despite equal fees paid by all students, there is a concern about teachers predominantly sitting near girls' desks and focusing on them during classes, neglecting others. It raises the question of whether boys, who have also paid fees, receive fair attention.

Teachers often emphasize students to pay attention, yet it appears they may not reciprocate by giving equal attention to all students. Note: Kindly refrain from confining us to only providing three suggestions for enhancing the learning process; instead, grant us the opportunity to present broader and more comprehensive recommendations.

Need to use projector more for better learning

Reality based works Projects Intenship

Website: www.vijayacollege.ac.in

They can be friendly with all support in each and everthing

Friendlyness

1. Would like a mentor and a career counsellor that's present at all times in the office. 2.

Locker facilities 3. More encouragement for sports 4. Hosting intercollege fests at our college

5. More interactive and physical applications of the curriculum

Gjiggjj

Should give more examples to understand the concepts... Should teach a real world situation beyond in the books... Should encourage for extra co curricular activities...

To use tools required,to use software required in current generation,

Help the students to involve in extracurricular activities and taking them to site visits of diffrent firms,and to held some fest and concerts and drama competition atleast a year.very bad in this when it is compared to other colleges.need to improve here atleast from now on

Class timings problem

I suggest the institution to keep dustbin in every class room,teach skills (soft skills) more often and improve overall in management.

More be they could work on providing wet lab experience rather than dry lab

Extraordinary fantastic mind blowing teachers

Well the teacher s are very kind and good and sometimes they tell reasonable action to our behaviour

Teachers should have coordination among themselves They should make students feel better in class by having good lectures They should teach in a comprehensive way to find the student easier and make him understand

Our institute should odopt modern technologies

Completion of portion Regularity teachers Reduce diversion Reduce giving advice

More efficient

More cultural activities More better way of explanation Good learning environment

Understanding the condition of student is very important There should be no urgency in covering the portions...

1) need some information regarding internship. 2) We need sports approach. 3) Usage of projector.

Should interact With students in good way Improve skills Improve cultural activities n physical activities

Excellent in everything

Please improve the office space in clg and the office people should be more approachable

1.Teachers not only just concentrate on the studies but they motivate us to work on our intrests 2.Teachers don't pressurize us for anything they alert us only when it is much needed

3.They are so open minded and each and every teacher try to know every student personally . 4.Teachers encourage us to attend classes rather than forcing us and give us support 24/7

and solve our doubts as many times possible 5.but the management here isn't much supportive to students they just don't like spending money for students they just want things to get done for free!!!!

Im alright with this much

Effective teaching Reduce absentism Syllabus completion

Improve in the office incharge

There is not placement support, no campus placement drive. I'm unemployed even after my graduation. My internals were deducted because I went to a job fair. Doesn't support any internship as attendance is the top priority.....

Need some projects and industrial visits

Teaching us more partical knowledge with theory

Learning experience was excellent

Some teachers scold us rather than completing the portions They need to go a bit slow in dictating

Overall learning experience is good

More example s will better

Don't know

Improve still in a better and proper easy way to approach students

1) The Teachers are supposed to be teaching in English but none of them speak. 2) Few Teachers dont even take classes regularly,they take leaves and if they take classes they are not punctual. 3) No proper explanations given in the computer lab and the faculties keep roaming and wasting time.

Ntg

Teaching is well

They should make student communication skills better Interaction should be incresed

Teacher and student should get interact

Nthg to say

Overall experience with this college is very good

I only have one suggestion it is very most important I.e To create opportunities for students to get placements and provide certificate courses to students.

Students want to learn discipline.

Good teaching, Overall good

More real time example

More effectively. Need more usage of ICT tools for better understanding.
