teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.						
20. The overall quality of teaching-learning process in your institute is very good	58	107	49	14	13	241

### Method of analysis

1. The student response with options 4, 3, 2, 1, 0 were counted for each question in the sample collected.
2. No. of student responses for each option was determined.
3. Total score was calculated by multiplying no. of each option from student responses by giving values 4, 3, 2, 1, 0.
4. Threshold of 75% was taken as the benchmark percentage above which the performance is good, below which the performance needs to be improved.

### Strengths of the system

1. Coverage of syllabus as per calendar provided by the university.
2. Preparation of teachers to handle classes
3. Ability to interact through communication is good
4. Fairness under internal evaluation system
5. Explanation of concepts through real time examples & applications
6. Teachers approach to content delivery is more students - friendly and student centric.
7. Overall quality of teaching - learning mechanism in the institution is good

### Areas requiring improvements

1. Promotion of internships and industrial visits through MoUs.
2. Promotion of students to enrol in MOOC and online-courses and attach the credits under internal assessment.
3. Mentoring process in facilitating cognitive, social & emotional growth of Students

Website: [www.vijayacollege.ac.in](http://www.vijayacollege.ac.in)

Every teacher is well educated I agree but they were only able to make students to score good marks but not at all knowledgeable because they only do concentrate on book knowledge not practical knowledge and they ask practical knowledge in lab exams while asking viva so how can we just learn practical knowledge without knowing because all these years we were only thought to study for exams score good marks so memorizing is very much important than learning things...which is completely waste of course.. So and the thing is we cannot solely blame only on teachers.. there is vast syllabus to complete so there will be pressure for them to complete it by 3 months and the syllabus will be for 6 months but they need to complete it by 3 months I don't know how can it be possible effectively so they really don't have time to analyze students weakness and strength to help them to learn well so the three things the institution must concentrate on is: : request to make 6 months course on 6 months and not 3 months : just let teachers to analyze students weakness and strength so give time to teachers to do so hence 3 months is not at all enough so please make it for 6 months : make sure that teachers need to use visual techniques for every subjects so that it will be more easier for slow students to pick up their learning :Don't just read it and vanish it sir please if you are really concerned about students please do consider what I have said Thank you for giving these opportunity to share opinions and problems with teaching

Usage of projector regularly More enhancement in teaching

Teachers should not think that students are thorough with the concepts of they learnt in their 12th /2nd pu and skip topics. Handwriting of teachers to be improved. In languages, teachers should improve their teaching and make sure each and every student understands their teaching thoroughly Ntg to say there r giving there best to teach us

1. No partiality 2. Should give internals marks

[Estd. 1945]

Website: [www.vijayacollege.ac.in](http://www.vijayacollege.ac.in)

Much focus on improving student's confidence

Include field trips The classes could be more interactive Guest lectures

It is better to hire teachers who interact with students. Some new teachers in computer science.. we feel like they don't know what lessons to get.. there is a lot of cheating in internals... students who attended classes.. were not given the marks they should have received.

The old watchman should be removed, Swati is very bad

No

We require one more teacher for Indian constitution . One teacher can not handle all classes i have noticed the effects she has putting to engage classes soo . Yes teachers are good in their work and towards their commitment. What i personaly fet about management is according to me i usually think that management should put some more efforts towards students behaviour and attitude I have noticed that someone students are carrying bad thoughts and behaviour and decipline have dropped down once all of this thing college should think about it... That's it thank you so much for providing this opportunity

No comment

Should make a quiz after one one chapter ends !

Just projector in every class

NIL

Teachers can improve

All are Good in teaching

Everything is good but sometimes they can't do well that's all

Absolutely they giving low internals

Extra classes

Preparation before class and completion of syllabus

Lecturer gave lower IA Mark's that is changed by one lecture because of they are in WEC, Cultural etc. They didn't attend the classes and IA test

but they also received 40 out of 40. what is their efforts. No efforts and they're earn full marks that's it. Don't make inequality, plz respect all and saw all are equal

Overall it's excellent

Satisfaction

Can make the concepts in common understanding

Usage of the projector in classes should be maximized

Nothing all is well

I think no need of suggestions are required Everything is fair and good

Teachers are very supportive

Supportive Environment

Integrate communication training Regular faculty development programs

Strengthen faculty-student interaction

1. Rush to the syllabus 2. Revision must be mandatory. 3. Conducting tests once in a week.

More practical based assignment rather than pointless theory assignments

One of the poorest college I never seen before thuucm

I request lecturers to explain theory with an example, practically Just verbal theory is very difficult to understand They rush to finish syllabus rather than making us understand the concept

Teacher should use LCD projector while explaining the difficulty topic

Null

Gsiiabwkafhako

Teachers are so rude and partial treatment for particular students and poor teaching skills which students are facing problems in there exams

Need more to be strict

My opinion is our college is have all most all possible work and admin block officers speak like friendly .

It was good

[Estd. 1945]

BHS Higher Education Society

[principal@vijayacollege.ac.in](mailto:principal@vijayacollege.ac.in)

Website: [www.vijayacollege.ac.in](http://www.vijayacollege.ac.in)

Everything is ok

1. The college should conduct more extracurricular activities like sports and culturals 2. Cross check whether the teachers have completed the syllabus 3. The college management's planning is very poor. 4. There is a list of problems to be solved but Google forms is not the solution.

1. Teaching theoretical is not efficient process of learning instead practical experience gives a clarity

Every day revision With good manner Student communication must

Complete syllabus on time

Have some experience skill facilities, in classroom to do presentation extra activities related to studies and practical knowledge like company how it works.

Should convey their explanation in language which touches the students immediately and make them understand

Change the Teachers ☐

They should talk students

Average

I think it's as good as it is

Very well

All the teachers I have seen this far feels like they only work for money they are not passionate of teaching and care a bit about us just ppt and reading those no proper interaction or guidance given just feels like i don't belong to that clg worst

1. To use more example based explanation 2. To give more case study based activities.

More efficiently

Teachers should give more assignments

N.A

Way of talking and communication skills in teaching

[Estd. 1945]

Good Suggestions: 1) Good teaching 2) Your clear explanations and engaging teaching style made the lesson very understandable and enjoyable. 3) Thank you for providing helpful and constructive feedback on my work. I appreciate the specific suggestions for improvement.

Good all. The teachers is good

Make sure that syllabus is covered consistently throughout the semester

As I observed in our college overall teaching is good

Should try to cover the portions and revise the topics so that everyone can understand

First remove AP and KJV Once check how are passing in AP subject

I think there are no problem with the teaching staff

Very well good

Industrial Visit , Coordination

Before you teach first prepare and come

Good

(1) Implementing active learning strategies, (2) Providing professional development for teachers, and (3) Improving feedback mechanisms for students and teachers.

Nice

Renovation of the class ambience and atmosphere

N

Using of projector and detail explaining and giving test on topic covered

1st is to suggest proper text books in languages. 2nd is to teach about the topic properly. 3rd is to make some revision or complete given portions in detailed manner.

It good

Please encourage the upcoming students in extra curricular activities and teaching staff can use some modern methodology to the students get easy to understand the academics. Mainly provide the information about exams

[Estd. 1945]

for students as you get the information. Learning experience is ok. And teaching staff will be not available after starting to upload the internal marks. Thank you.

Overall teachers make one mistake ie easy topics makes difficult to understand , difficult subject makes easy

We have good faculty ☐

It's very well understand the every subject the faculty are very good

1) Before teaching any topic first make us understand the importance of the topic  
2) Use youtube video for some complex topic for visual reference  
3) Please at the end of the class ask questions to the students or in between class Every day ask questions to different students so that it will be engaging  
4) Most important part of the lecture should be the conclusion , at the end of the lecture please write on the board what topic u covered in last 10 min  
Thank you for asking feedback and taking our opinion
