5. Overall Outcome

The majority of the suggestions of the Governing Council and the decisions of the IQAC have been implemented within the academic year, particularly in the areas of student-centric activities, skill development, IPR sensitisation, feedback mechanisms, extension activities and NAAC documentation. Most of the activities discussed with the various department of the institution are been implemented in the academic year 2024-25. Initiatives requiring management approval or capital expenditure — the incubation centre/entrepreneur cell, CSR certification, website revamp, ATAL FDP and alternative-energy proposals — are at a stage of processing and will be pursued in the academic year 2025–26. The progress on all pending action points will be reviewed in the subsequent IQAC meetings.
